

PlumbMaster, Inc.

NEW PRODUCT

Replacement Ceramic Stems for Chicago XK Series

- Replace Older Compression Stems with Ceramic Stems and Forget About Repairs for Years to Come
- Ceramic Stems Use Two Fire-Hardened Ceramic Discs to Control Water Flow Instead of Rubber Washers – Making Them Virtually Guaranteed to Never Wear Out
- Ceramic Discs are More Durable Over Time in a Broader Range of Water Conditions than Compression Stems
- Replace Chicago XK Series Stems Which are Used in Many Commercial Faucets
- Perfect Solution for Industrial and Commercial Faucets that are Subject to Constant Use
- Includes O-Ring
