

PlumbMaster, Inc.

NEW PRODUCT

InsideOut™ Wrench

- Utilizes a patented inside gripping process to remove corroded or frozen parts, particularly those with little or no gripping surface
- Removes corroded or rusted tub-shoe flanges with or without cross bars
- Removes and replaces urinal and water closet spuds
- Pulls rusted trap arm nipples under lavatories and kitchen sinks without crushing the pipe
- Grips and removes corroded pop-up assembly flanges without having to cut the pipe
- Keeps strainer baskets from spinning while removing locking rings or nut
- Includes Small Collet, Nut & Washer and O-Ring
- Uses a Large Collet for applications 1-7/8" to 2-1/4" in diameter
- Uses a Small Collet for applications 1-1/2" to 2" in diameter
