NEW PRODUCT

Sloan "Royal" Performance™ Kits

- Upgrades Existing "Royal" and "Regal" Valves
- Drop-In Kit Includes Unique, Patented Dual Filtered Diaphragm™, which is Made of Permex® Rubber and is Specially Designed to Protect the Valve Against Run-On Often Caused by Sand Particles and Other Water-Borne Debris Clogging the Flushometer
- Permex® Rubber Used in the Dual Filtered Diaphragm™ is also specially designed to Fight Chloramines and Other Harmful Chemicals Often Found in "Hard" Water Areas
- The V-651-A Vacuum Breaker Kit Incorporates the Use of a "Skirt" Around the Bottom of a Vacuum Breaker Sleeve, Which Assists in Handling High Back Pressure Caused by Low Consumption Closets and Urinals and Eliminates Unsightly Dribble and Leakage
- B-51-A Handle Repair Kit Uses a New Triple Seal Handle Packing, which Provides 50% Increase in Sealing Capability and is Made from Permex® Elastomeric Material to Withstand Ammonia-Treated Water Supplies
